Mandatory and recommended targets of the year 2018

**Sustainable new wool policy**
Target demand: Publication of a written policy for new wool, incl. positioning against mulesing.
In 2018, we will publish the Primark Animal Welfare position statement which contains full details of our position on wool including mulesing. We have actively engaged with internal and external stakeholders on the development of this public-facing position statement.

**Chemical and environmental management:**
In 2018, we will continue to support the producers in improving environmental management and good housekeeping practices within their supply chain via publication of our Supplier Environmental Sustainability Requirements and continue to build on our programme of training with suppliers.

**Natural fibers**
Target demand: Increased share of sustainable cotton, pressured by our organization to 5 % including organic cotton (a share of the total amount of cotton) 0 %.
For our Primark Sustainable Cotton Programme (PSCP), we record data on yarn production, ginning and all the way back to the cotton field, to ensure that we can implement full traceability. We will expand the PSCP in 2018 to an additional 1,500 farmers, taking the total to 6,500 farmers.

**Natural fibers**
Target demand: Implementation of measures to raise awareness about sustainable textile production in the following topics:
- Freedom of association and collective bargaining
- Child labour
- Forced labour
- Use of safe chemicals
- Good housekeeping
- Water and wastewater management
- Good housekeeping
- Resource efficiency
- Recycling

Raising awareness regarding sustainable textiles.

In 2018, we will pilot messages on our Ethical Trade programme to our customers in store in Germany. The messages aim to raise awareness of Primark’s activities on Ethical Trading & Environmental Sustainability and highlights products to our customers with sustainable features.

**Voluntary targets of the year 2018**

**Recorded data in the deeper supply chain**
Target demand: Expanding our requirements to the supply chain to include:
- Farmers / Agricultural enterprises
- For our Primark Sustainable Cotton Programme (PSCP), we track production from the cotton field to garment manufacture and retail. This approach ensures we have full traceability of the supply chain at all stages. We continue to expand the programme to increase our volume of sustainable cotton.

**Improving our monitoring system**
Target demand: Strengthening / improving our inspecting and monitoring system with the help of:
- Supplier audits performed by others (3rd party)

Under the Primark Structural Integrity Programme, all Tier 1 and Tier 2 production sites in Bangladesh are monitored. In 2018 we will complete the roll out of the programme to all Tier 1 and Tier 2 production sites in Pakistan.

**Expanding the requirements for the supply chain**
Target demand: Expanding our requirements to the supply chain to include:
- Use of safe chemicals
- Good housekeeping
- Environmental management system
- Water and wastewater management
- Resource efficiency
- Recycling

In 2018 we are developing and will publish a Supplier Environmental Guidance document (developed through our Environmental Management System project) to Primark suppliers. It will clearly outline Primark’s expected level of environmental management (good housekeeping) within our supply chain.
In 2018 we published updates to Primark’s Restricted Substances List and rolled out our ‘Implementation Toolkit’ to 100% of Primark suppliers: You can find the Primark RSL 2018 here: www.primark.com/-/media/ourethics/detox/pdfs/primarkrestrictedsubs

Excellence programmes

Target demand: Supporting excellence programmes or other awards for producers and business partners for implementation of the Partnership’s goals in connection with:

m) Water and wastewater management

In 2018 we will continue to scale up our wastewater testing programme to the facilities our suppliers work with for Primark production, in-line with ZDHC’s bi-annual reporting requirements on the ‘ZDHC Gateway – Waterdata’ platform.

Excellence programmes deeper SC

Target demand: Supporting excellence programmes or other awards for stakeholders in the deeper supply chain for implementation of the Partnership’s goals in connection with:

m) Water and wastewater management

In 2018 we will continue to scale up our wastewater testing programme to the facilities our suppliers work with for Primark production, in-line with ZDHC’s bi-annual reporting requirements on the ‘ZDHC Gateway – Waterdata’ platform.

Promote awareness sustainable textile production

Target demand: Promote awareness of socially sustainable textile production in Germany

Following our successful pilot in UK and Germany, we will roll out the Primark Recycling Initiative to cover more European stores in 2017/2018.

Old targets of the year 2017

Communicate requirements to the supply chain

Target demand: Defining and communicating the following requirements to the supply chain in order to prevent or minimise identified risks in connection with our operations:

- Use of safe chemicals
- MRSL (chemical inputs at stages of processing)
- RSL (chemical residues on textile product)
- Good housekeeping
- Environmental management system
- Water and wastewater management
- Resource efficiency

The Primark RSL is fully compliant to the ZDHC MRSL and includes some stricter requirements. In 2018, we will publish updates to our Chemical Management Implementation Toolkit to 100% of Primark suppliers.

Excellence programmes

Target demand: Supporting excellence programmes or other awards for producers and business partners for implementation of the Partnership’s goals in connection with:

m) Water and wastewater management

In 2018 we will continue to scale up our wastewater testing programme to the facilities our suppliers work with for Primark production, in-line with ZDHC’s bi-annual reporting requirements on the ‘ZDHC Gateway – Waterdata’ platform.

Excellence programmes deeper SC

In 2018 we will continue to scale up our wastewater testing programme to the facilities our suppliers work with for Primark production, in-line with ZDHC’s bi-annual reporting requirements on the ‘ZDHC Gateway – Waterdata’ platform.

Anchoring and integration in the supply chain

Target demand: Anchoring and communicating the following requirements to the supply chain in order to prevent or minimise identified risks in connection with our operations:

- Use of safe chemicals
- MRSL (chemical inputs at stages of processing)
- RSL (chemical residues on textile product)
- Good housekeeping
- Environmental management system
- Water and wastewater management
- Resource efficiency

The Primark RSL is fully compliant to the ZDHC MRSL and includes some stricter requirements. In 2018, we will publish updates to our Chemical Management Implementation Toolkit to 100% of Primark suppliers.

Target demand: Supporting excellence programmes or other awards for producers and business partners for implementation of the Partnership’s goals in connection with:

m) Water and wastewater management

In 2018 we will continue to scale up our wastewater testing programme to the facilities our suppliers work with for Primark production, in-line with ZDHC’s bi-annual reporting requirements on the ‘ZDHC Gateway – Waterdata’ platform.

Target demand: Anchoring and communicating the following requirements to the supply chain in order to prevent or minimise identified risks in connection with our operations:

- Water and wastewater management
- Resource efficiency

The Primark RSL is fully compliant to the ZDHC MRSL and includes some stricter requirements. In 2018, we will publish updates to our Chemical Management Implementation Toolkit to 100% of Primark suppliers.

Sector-wide engagement

Target demand: Implementing measures to improve sustainability beyond our own supply chain

In 2018, in collaboration with MADE-BY & SCAP, we will publish guidelines for our buyers on more sustainable material procurement.

Target demand: Promote awareness of socially sustainable textile production in Germany

Following our successful pilot in UK and Germany, we will roll out the Primark Recycling Initiative to cover more European stores in 2017/2018.

Excellence programmes deeper SC

Target demand: Supporting excellence programmes or other awards for stakeholders in the deeper supply chain for implementation of the Partnership’s goals in connection with:

m) Water and wastewater management

In 2018 we will continue to scale up our wastewater testing programme to the facilities our suppliers work with for Primark production, in-line with ZDHC’s bi-annual reporting requirements on the ‘ZDHC Gateway – Waterdata’ platform.

Excellence programmes deeper SC

Target demand: Promote awareness of socially sustainable textile production in Germany

Following our successful pilot in UK and Germany, we will roll out the Primark Recycling Initiative to cover more European stores in 2017/2018.

In 2018 we will continue rolling out the scheme in our stores this year. Customers will be able to donate their unwanted garments, textiles and shoes, from any brand, in stores to be repurposed or recycled. Primark will donate the profits generated from this scheme to UNICEF, its global charity partner.
