

Independent Limited Assurance Report to ABF Investments PLC

KPMG LLP ('KPMG' or 'we') were engaged by ABF Investments PLC ('ABF Investments') to provide limited assurance over the Selected Information described below for the year ended 31 December 2020.

Our conclusion

Based on the work we have performed and the evidence we have obtained, nothing has come to our attention that causes us to believe that the Selected Information has not been properly collated, in all material respects, in accordance with the Reporting Criteria.

This conclusion is to be read in the context of the remainder of this report, in particular the inherent limitations explained below and this report's intended use.

Selected Information

The scope of our work includes only the information included within ABF Investments' Primark 'Setting High Standards – Our Performance' section ('the Website') of the ABF Investments' Primark website for the year ended 31 December 2020 marked with the symbol Σ ('the Selected Information').

We have not performed any work, and do not express any conclusion, over any other information that may be included in the Website or displayed elsewhere on ABF Investments' Primark website for the current year or for previous periods unless otherwise indicated.

Reporting Criteria

The Reporting Criteria we used to form our judgements are ABF Investments' Primark Reporting Guidelines 2020 as set out at <https://www.primark.com/en/primark-cares/setting-high-standards/our-performance> ('the Reporting Criteria'). The Selected Information needs to be read together with the Reporting Criteria.

Inherent limitations

The nature of non-financial information; the absence of a significant body of established practice on which to draw; and the methods and precision used to determine non-financial information, allow for different, but acceptable evaluation and measurement techniques and can result in materially different measurements, affecting comparability between entities and over time.

In respect of the audit ratings used, our assurance procedures were limited to agreeing the reported rating back to management's ratings contained within ABF Investments' internal system to test if the rating has been extracted accurately from ABF Investments' data records.

Directors' responsibilities

The Directors of ABF Investments are responsible for:

- designing, implementing and maintaining internal controls relevant to the preparation and presentation of the Selected Information that is free from material misstatement, whether due to fraud or error;
- selecting and/or developing objective Reporting Criteria;
- measuring and reporting the Selected Information in accordance with the Reporting Criteria; and
- the contents and statements contained within the Website and the Reporting Criteria.

Our responsibilities

Our responsibility is to plan and perform our work to obtain limited assurance about whether the Selected Information has been prepared in accordance with the Reporting Criteria and to report to ABF Investments in the form of an independent limited assurance conclusion based on the work performed and the evidence obtained.

Assurance standards applied

We performed our work in accordance with International Standard on Assurance Engagements (UK) 3000 – 'Assurance Engagements other than Audits or Reviews of Historical Financial Information' ('ISAE (UK) 3000') issued by the UK Financial Reporting Council.

The work performed in a limited assurance engagement varies in nature and timing from, and is less in extent than for, a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed.

Independence, professional standards and quality control

We comply with the Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants and we apply International Standard on Quality Control (UK) 1, 'Quality Control for Firms that Perform Audits and Reviews of Financial Statements, and Other Assurance and Related Services Engagements'. Accordingly, we maintain a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements and professional standards (including independence, and other requirements founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour) as well as applicable legal and regulatory requirements.

Summary of work performed

Considering the level of assurance and our assessment of the risk of material misstatement of the Selected Information, whether due to fraud or error, our work included, but was not restricted to:

- assessing the appropriateness of the Reporting Criteria for the Selected Information;
- conducting interviews with management to consider the ethical trading data collation and validation processes at the ABF Investments reporting level, including considering the processes in place designed to ensure that the reported data is drawn from a complete set of ethical trading data and checking whether the classification is based on the findings of the underlying ethical trade audits;
- examining a selection of ethical trading management documentation and reporting tools including, but not exclusively, third party audit reports, corrective action plans, and the ethical trading reporting database;
- assessing a selection of the formulae used and manual calculations performed over the Selected Information;
- performing analytical review procedures over the aggregated Selected Information, including a comparison to the prior year amounts having due regard to changes in business volume and the business portfolio;
- agreeing a selection of aggregated ethical trade information back to supporting documentation from the ethical trading audits;
- re-performing the calculations of percentage of suppliers audited; and
- reading the Website and narrative accompanying the Selected Information on the Website with regard to the Reporting Criteria, and for consistency with our findings.

This report's intended use

This assurance report is made solely to ABF Investments in accordance with the terms of the engagement contract between us. Those terms permit disclosure to other parties, solely for the purpose of ABF Investments showing that it has obtained an independent assurance report in connection with the Selected Information.

We have not considered the interest of any other party in the Selected Information. To the fullest extent permitted by law, we accept no responsibility and deny any liability to any party other than ABF Investments for our work, for this assurance report or for the conclusions we have reached.
